

RAJ KANOJIYA

Networking Engineer

About Me

I am an Electronics & Communication Engineering graduate with a strong interest in networking and systems management. With 1 year of experience at Infrasoul Private Limited, I have gained expertise in network setup, troubleshooting, and programming. Currently, I am enhancing my network development skills through a Network Career Development Programming course. I am looking forward to applying my knowledge and skills to build innovative and efficient network solutions.

Experience

Networking Engineer.

Infrasoul Private Limited.

As a Networking Engineer at Infrasoul Pvt. Ltd., I manage and configure network devices, troubleshoot connectivity issues, and optimize network performance. I also automate network tasks using scripting and collaborate with teams to implement efficient network solutions. My role focuses on ensuring secure, reliable, and high-performing network infrastructure for clients.
